Agency Disclosure: Rob Woodrow, Licensed Real Estate Broker in the states of Illinois and South Dakota, is employed by Midland Farms, LLC as farm manager and represents the sellers in the sale of the property.

HUNTING

Hunting opportunities are great, with good population of pheasant, white tail deer, mule deer and antelope.

Pronghorn Antelope

600' x 100' machine shed at the headquarters

House at headquarters

The Midland Farms LLC Elevator & Rail Loading facility is located approximately 15 miles from the farm headquarters in the town of Midland South, Dakota. There is approximately 355,000 bushels of grain storage at the elevator. The elevator has scales, a grain cleaner and the ability to load 25 rail cars. The elevator is serviced by the Rapid City, Pierre & Eastern Railroad.

The RCPE interchanges with the BNSF at Wolsey, SD & Crawford, NE; The Canadian Pacific at Tracy, MN; and the UP at Mankato, MN. Essentially allowing the grain produced on the Midland Farm to be sent anywhere in the world!

With some updating the rail facility in Midland could receive inbound shipments of seed, dry fertilizer and liquid fertilizer which has the potential to lower the farms annual
